OUR COMPANY AND ITS STAFF

- 28 years of experience on the European market
- technology R&D company focused on developing security solutions and systems combining mechanical and electronic measures
- partner approach to our 2000+ customers
- knowledge and understanding of the security seals market
- implementation of innovative security solutions using sealing products
- state of the art printing department – top of the line lasers dedicated to marking on plastic products

OUR ADVANTAGES

- cooperation with leading scientists and research centers in Poland regarding RFID solutions, materials and industrial design
- member of AIM Global and Polish ICT Cluster Interizon
- highly experienced staff
- R&D teams developing new security solutions

WE OFFER YOU

- intelligent security seals using RFID technology
- passive tamper evident pull tight seals
- customized and innovative security systems
- solutions designed to meet your or your customers individual requirements
- personalized markings on your seals

RFID

TAMPER EVIDENT
RFID SECURITY SEALS

TAMPER EVIDENT RFID ADVANTAGES

- CLEAR INDICATION THAT THE SEAL WAS TAMPERED WITH
- REDUCTION OF COSTS
- READING DATA EVEN IN HARSH ENVIRONMENT CONDITIONS
- ENHANCED SECURITY SOLUTION
- HIGHER READING DISTANCES
- SOLUTIONS DESIGNED TO YOUR NEEDS

TEX-PLASTIC SEAL

● 1ST UHF RFID TAMPER EVIDENT PULL TIGHT SEAL

- PASSIVE SEAL - NO BATTERY
- MADE OF PLASTIC
- NO METAL STRAP
- INFORMATION ABOUT TAMPERING WHEN THE SEAL IS READ
- UHF RFID
- READING DISTANCE: UP TO 10 METERS
- REGULATED LENGTH OF LOOP
- READY FOR HARSH ENVIRONMENT
- CAN BE USED IN ATEX ZONES

TE-CABLE SEAL

- UHF RFID TAMPER EVIDENT CABLE SEAL
- PASSIVE SEAL - NO BATTERY
- PLASTIC BODY + METAL CABLE
- VISIBLE TAMPERING AND INFORMATION ABOUT TAMPERING WHEN THE SEAL IS READ
- UHF RFID
- READING DISTANCE: UP TO 4 METERS
- REGULATED LENGTH OF LOOP

INFO PLASTIC SEAL

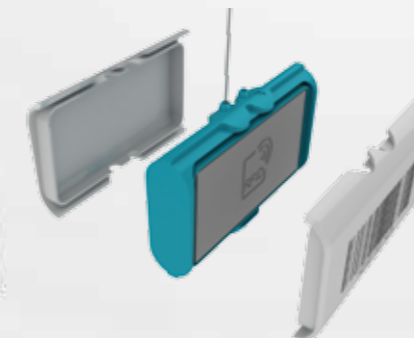

- UHF / HF RFID PLASTIC SEAL
- PASSIVE SEAL - NO BATTERY
- MADE OF 100% PLASTIC
- NO METAL STRAP
- UHF / HF RFID
- READING DISTANCE: UP TO 2 METERS
- REGULATED LENGTH OF LOOP
- 100% TIGHTNESS
- CAN BE USED IN HUMID ENVIRONMENT
